9. Description (Summarize the nature of the application.)

(If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)

Application for transfer of control of international section 214
authorizations of MCI WorldCom International, Inc. from MCI, Inc. to
Verizon Communications Inc.

10. In Attachment 1, please respond to paragraphs (c) and (d) of Section 63.18 with respect to the assignor/transferor and the assignee/transferee. Label your response "Answer to Question 10".

11. Does any entity, directly or indirectly, own at least ten (10) percent of the equity of the assignee/transferee as determined by successive multiplication in the manner specified in the note to Section 63.18(h) of the rules?

☐ Yes ☒ No

If you answered "Yes" to this question, provide in Attachment 1, the name, address, citizenship, and principal businesses of each person or entity that directly or indirectly owns at least ten (10) percent of the equity of the assignee/transferee, and the percentage of equity owned by each of those persons or entities (to the nearest one percent). Label your response "Answer to Question 11."

12. Does the assignee/transferee have any interlocking directorates with a foreign carrier?

☒ Yes ☐ No

If you answered "Yes" to this question, identify each interlocking officer/director in Attachment 1. (See Section 63.09(g).) Provide the name and position/title of the individual or entity, the name of the foreign carrier, and the country in which the foreign carrier is authorized to operate. Label your response: "Answer to Question 12."

13. Provide in Attachment 1 a narrative of the means by which the proposed assignment or transfer of control will take place. In circumstances of a substantial assignment or transfer of control pursuant to Section 63.24(e), where the assignor seeks authority to assign only a portion of its U.S. international assets and/or customer base, please specify whether the assignor requests authority to continue to operate under any or all of its international Section 214 File Nos. after consummation; and, if so, please specify in Attachment 1 each File No. it seeks to retain in its own name. Label your response "Answer to Question 13."

Note: The assignor may retain any or all of its international Section 214 File Nos. In that case, the assignor will continue to hold the international section 214 authorizations that it specifies in response to this question. The ITC–ASG File No. that the Commission assigns to this application will, when granted, constitute Commission authorization of the proposed assignment of assets and /or customers from the assignor to the assignee. Unless Commission grant of the assignment application specifies otherwise, the assignee may provide the same services on the same routes as permitted under the assignor’s Section 214 authorization(s), and the assignee may provide such service to any customers it may obtain in the ordinary course of business.

If this filing is not a notification of a pro forma assignment or pro forma transfer of control, please respond to Questions 14–20 below. (See Section 63.24(d).) Otherwise, you may proceed to Question 22 below.

14. Check "Yes" below if the assignee is a foreign carrier or if, upon consummation of the proposed assignment or transfer of control, the Section 214 holder would be affiliated with a foreign carrier. (See Section 63.18 (i).) The terms "foreign carrier" and "affiliated" are defined in Section 63.09 (d) & (e) of the rules respectively. ☒ Yes ☐ No

If you answered "Yes" to this question, please specify in Attachment 1 each foreign country in which the assignee is a foreign carrier or in which the Section 214 holder, upon consummation, would be affiliated with a foreign carrier. Label your response, "Answer to Question 14."

15. If this application is granted and the proposed assignment or transfer is consummated, would the Section 214 holder be authorized to provide service to any destination country for which any of the following statements is true?

☒ Yes ☐ No

- (1) The Section 214 holder is a foreign carrier in that country; or
- (2) The Section 214 holder controls a foreign carrier in that country; or
- (3) Any entity that owns more than 25 percent of the Section 214 holder, or that controls the Section 214 holder, controls a foreign carrier in that country.
- (4) Two or more foreign carriers (or parties that control foreign carriers) own, in the aggregate, more than 25 percent of the Section 214 holder and are parties to, or the beneficiaries of, a contractual relation (e.g., a joint venture or market alliance) affecting the provision or marketing of international basic telecommunications services in the United States.

If you answered "Yes" to this question, please specify in Attachment 1 each foreign carrier and country for which any of the above statements would be true. Label your response, "Answer to Question 15."

16. If you answered "Yes" to question 14, do you request classification of the Section 214 holder as a "non-dominant" carrier, upon consummation of the proposed transaction, between the United States and any or all countries listed in response to Question 14? See Section 63.10 of the rules.

☒ Yes ☐ No

If you answered "Yes" to this question, you must provide information in Attachment 1 to demonstrate that the Section 214 holder would qualify for non-dominant classification under Section 63.10 of the rules on each U.S.-destination country route where it would be a foreign carrier, or would be affiliated with a foreign carrier and for which you request non-dominant classification. Label your response, "Answer to Question 16."

17. If you answered "Yes" to question 14 and you have not provided information in response to Question 16 to demonstrate that the Section 214 holder would qualify for non-dominant classification under Section 63.10 of the rules on each U.S.-destination route where it would be a foreign carrier, or be affiliated with a foreign carrier, check "Yes" below to certify that the assignee/transferee agrees to comply with the dominant carrier safeguards in Section 63.10 (c) & (e) of the rules in the provision of international service between the United States and any foreign country(ies) for which you have not provided the required information.

☒ Yes, I certify that I agree to comply with the dominant carrier safeguards in Section 63.10 (c) & (e) of the rules in my provision of international service between the United States and the following foreign country(ies):

Gibraltar, Dominican Republic and Venezuela.

☐ No, Does not apply.

18. If you answered "Yes" to question 15, and if you have not provided information in response to question 16 to demonstrate that the Section 214 holder would qualify for non-dominant classification under Section 63.10 of the rules in its provision of service to each of the countries identified in response to question 15, the Section 214 holder may not be eligible to provide international telecommunications service between the U.S. and each such country following consummation of the assignment or transfer. In order to determine whether the public interest would be served by authorizing service on these U.S.-destination country routes, the assignee/transferee must provide information, in Attachment 1, to satisfy one of the showings specified in Section 63.18(k) of the rules. Label your response, "Answer to Question 18."

19. If the assignee, or the Section 214 holder that is the subject of this transfer of control application, is a provider of Commercial Mobile Radio Services, you need not answer this question.

If any of the Section 214 authorization(s) that would be assigned or transferred, authorize the Section 214 holder to resell the international switched services of an unaffiliated U.S. carrier for the purpose of providing international telecommunications services to a country listed in response to question 14, and unless you have provided information in response to question 16 to demonstrate that the Section 214 holder would qualify for non-dominant classification under Section 63.10(a)(3) of the rules for each country, check "Yes" below to certify that the assignee/transferee will file the quarterly traffic reports required by Section 43.61(c) of the rules; and/or state in Attachment 1 that the foreign carrier(s) for which the applicant has not made a showing under Section 63.10(c)(3) do(es) not collect settlement payments from U.S. international carriers. (See Section 63.18(l).)

☒ Yes, I certify that I agree to comply with the quarterly traffic reporting requirements set forth in section 43.61(c) of the rules.

20. If the applicant desires streamlined processing pursuant to Section 63.12 of the rules, provide in Attachment 1 a statement of how the application qualifies for streamlined processing. (See Section 63.18(p).) Note that, if the application is being filed in connection with a sale of assets or reorganization of a carrier or its parent pursuant to the U.S. bankruptcy laws, the application may not be eligible for streamlined processing until final bankruptcy court approval of the proposed sale or reorganization.

Applicant certifies that its responses to questions 21 through 25 are true:

21. The assignee/transferee certifies that it has not agreed to accept special concessions directly or indirectly from a foreign carrier with respect to any U.S. international route where the foreign carrier possesses sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market and will not enter into any such agreements in the future. ☒ Yes ☐ No

22. By signing this application, the undersigned certify either (1) that the authorization(s) will not be assigned or that control of the authorization(s) will not be transferred until the consent of the Federal Communications Commission has been given, or (2) that prior Commission consent is not required because the transaction is subject to the notification procedures for pro forma transactions under Section 63.24 of the rules. The assignee/transferee also acknowledges that the Commission must be notified by letter within 30 days of a consummation or of a decision not to consummate. (See Section 63.24(e)(4).) ☒ Yes ☐ No

23. If this filing is a notification of a pro forma assignment or transfer of control, the undersigned certify that the assignment or transfer of control was pro forma and that, together with all previous pro forma transactions, does not result in a change in the actual controlling party. ☐ Yes ☐ No

Answer to Question 13 – Narrative of Transfer of Control and Public Interest Statement:

The instant application requests authority to transfer control of the international Section 214 authorizations described herein and held by MCI and/or its subsidiaries from MCI to Verizon. Verizon and MCI have entered into a transaction that will result in MCI becoming a wholly-owned subsidiary of Verizon. Under the terms of the agreement, a wholly-owned subsidiary of Verizon will merge with and into MCI. MCI will be the surviving corporation, thereby becoming a wholly-owned subsidiary of Verizon. MCI shareholders will receive 0.4062 shares of Verizon common stock and \$1.50 for each MCI share owned. Shareholders also will receive a special dividend payment of \$4.50 per share.

Following consummation of the transaction, MCI will continue to own the stock of its subsidiaries and MCI and its subsidiaries will continue to hold all of the FCC authorizations that they held prior to the transaction. As such, the transaction does not involve any assignment of MCI's licenses and authorizations, or any change in the licensees that hold such licenses and authorizations, and those companies will continue to provide service to the public. Similarly, the transaction will not result in any assignment of Verizon's existing licenses and authorizations, or any change in the licensees that hold such licenses and authorizations. Those companies also will continue to provide service to the public.

A description of the public interest benefits of the transaction is attached as Exhibit 1 to the "Application for Consent to Transfer of Control" seeking FCC consent to the transfer of control of certain domestic Section 214 authorizations held by MCI and its subsidiaries to Verizon. That application is available online through the FCC's Electronic Comment Filing

System ("ECFS") at <http://www.fcc.gov/cgb/ecfs/> under the proceeding WC Docket No. 05-75. The exhibit is incorporated herein by reference, as permitted under FCC rules.⁴

Verizon is affiliated, as that term is defined in Section 63.09 of the Commission's rules, with a number of foreign carriers. The foreign affiliations, including the types of services offered and the nature of the relationship with Verizon, are listed below. Exhibit 2 to this application summarizes the pertinent information required by Sections 63.11(e)-(f) of the Commission's Rules for each foreign carrier affiliate of Verizon.

Answer to Question 15 – Section 63.18(j):

Pursuant to Section 63.18(j) of the Commission's rules, 47 C.F.R. § 63.18(j), Verizon certifies that it is not a foreign carrier but that it holds controlling interests in certain foreign carriers in destination countries, as described above in the answer to Question 14. Verizon will also continue to provide service in foreign markets via the foreign carriers affiliated with MCI and its subsidiaries listed in the response to Question 14. Therefore, following consummation of the transaction, the MCI 214 Licensees will be authorized to provide service to the following destination countries where Verizon and/or MCI control a foreign carrier:

Answer to Question 16 – Section 63.10:

Upon consummation, the MCI 214 Licensees will be eligible for non-dominant classification on all U.S.-international routes except U.S.-Gibraltar, U.S.-Dominican Republic, and U.S.-Venezuela. All of the foreign carrier affiliates listed in the response to Question 14, with the exception of Verizon's affiliates in Gibraltar, the Dominican Republic, and Venezuela, lack 50 percent market share in the international transport and the local access markets in the destination markets where they provide service, and are therefore entitled to a presumption of non-dominance pursuant to Section 63.10(a)(3) of the Commission's rules, 47 C.F.R. § 63.10(a)(3). The Commission has previously found that these foreign carrier affiliates lack market power in their respective markets.¹⁴

Verizon and MCI have overlapping foreign carrier affiliations in Belgium, France, Germany, Hong Kong, Ireland, Italy, Japan, the Netherlands, Singapore, Spain, Switzerland, the United Kingdom, and Venezuela. The parties certify that in each of these destination markets, except for Venezuela, the foreign carrier affiliates of Verizon and MCI collectively lack 50 percent market share in the international transport and the local access markets. Thus, except in Venezuela, these overlapping affiliates continue to be entitled to a presumption of non-dominance.

¹² MCI holds a 97% ownership interest in MCI WorldCom A.G.

¹³ MCI holds a 60% ownership interest in UUNET Zambia Limited.

¹⁴ See Foreign Carrier Affiliation Notification, Public Notice, Rep. No. FCN-00069, DA No. 02-2471 (rel. Oct. 1, 2002), File Nos. FCN-NEW-20020905-00035–FCN-NEW-20020905-00047; *WorldCom, Inc. and MCI, Inc. WorldCom, Inc. and its Subsidiaries (debtors-in-possession), Transferor, and MCI, Inc., Transferee, Applications for Consent to Transfer and/or Assign Section 214 Authorizations, Section 310 Licenses, and Submarine Cable Landing Licenses*, Memorandum Opinion and Order, 18 FCC Rcd 26484 (2003).

Through Verizon, the MCI 214 Licensees will be affiliated with foreign carriers in Venezuela (CANTV),¹⁵ the Dominican Republic (Verizon Dominicana), and Gibraltar (Gibtelecom) that have not yet been declared non-dominant. The parties note that the MCI 214 Licensees will not be subject to dominant carrier obligations on the U.S.-Gibraltar, U.S.-Dominican Republic, and U.S.-Venezuela routes to the extent that they serve those routes by reselling the international switched services of unaffiliated U.S. facilities-based carriers. The MCI 214 Licensees will comply with the dominant carrier regulations on these routes to the extent they serve these routes by reselling the international switched services of affiliated U.S. facilities-based carriers.

Answer to Question 18 – Section 63.18(k):

The destination countries listed in the Answer to Question 15 are World Trade Organization member countries, except Taiwan and Russia.¹⁶ MCI's affiliates in Taiwan and Russia neither control bottleneck facilities nor have a fifty percent or greater market share in the Taiwanese and Russian international transport or local access markets, and therefore lack market power in Taiwan and Russia, respectively.

¹⁵ MCI de Venezuela, S.A., an affiliate of MCI, is entitled to a presumption of non-dominance because it has less than a 50 percent market share in the local access and transport markets in Venezuela. Consequently, MCI de Venezuela, S.A., does not appear on the Commission's updated "List of Foreign Telecommunications Carriers that are Presumed to Possess Market Power in Foreign Telecommunications Markets." See <http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-1584A1.pdf>. The MCI 214 Licensees, however, will comply with the Commission's dominant carrier regulations for the U.S.-Venezuela route due to their affiliation with CANTV, to the extent that they provide international facilities-based service or resell the international switched services of an affiliate.

¹⁶ See List of WTO Member Countries at <http://www.wto.int/english/thewto_e/whatis_e/tif_e/org6_e.htm>.
